

OFFICE OF THE GOVERNOR

February 2, 2004

Dear Mr. Woolson:

Thank you for writing and sharing your comments on highway litter.

California was built by the ingenuity and hard work of its people, and our great State continues to thrive because of their involvement and commitment.

I greatly appreciate receiving input from my fellow Californians. Taking the time to communicate your opinions and offer suggestions is essential to good citizenship and good government.

Again, thank you for taking the time to write. I value the comments of people like you who care about the future of California.

Sincerely,

A handwritten signature in black ink that reads "Arnold Schwarzenegger".

Arnold Schwarzenegger
